

SUPERFOX SOFTWARE FOR CHILDCARE SUPERHEROES

SuperFox is a software package that makes administration and financial management easier and faster for all types of childcare setting.

SuperFox has been developed as a sustainability initiative in collaboration with childcare providers and 14 Local Authorities. Over 4000 copies have now been shipped. (We also have experience in running our own settings.)

SuperFox manages family details and accounts, including the Free Entitlement and the overall setting accounts.

You can easily produce your register pages, invoices and late payment reminders. There are many useful in-setting summaries for children and staff. If you wish you can also produce pay statements.

SuperFox includes intuitive usage and financial reports and statutory data returns. It is a great aid in running your setting and in supporting sustainability.

Ideal for:

- Nurseries
- Pre-schools
- Out of School Clubs
- Childminding Groups

SuperFox has been designed to work on computers running Windows XP, Windows Vista and Windows 7.

 Helios Computing Ltd

Is It Expensive?

No - it was originally designed for people who could not afford to buy childcare software. SuperFox is also available to Local Authorities to use in their area for a low one-off fee.

Children's Details Are Secure

SuperFox database files are encrypted and password protected which means that they cannot be read except by your copies of SuperFox. Even if you lose a bag your data is still safe.

How Easy Is SuperFox To Use?

Very easy indeed. SuperFox uses a very intuitive presentation that looks like a web browser. Once you have mastered a few screens you can use the program. SuperFox comes with comprehensive help, easy tutorials, mini guides and example data sets to get you started.

How Long Does SuperFox Take To Set Up?

You can quickly import family data from spreadsheets. Without the import it can take about a day to enter the details for a typical setting. It is time well spent and you should save this many times over in the first month of using the program.

SuperFox Runs Well On Old And New Computers

We have taken care to make sure that SuperFox will run on very modest computers. You will need a computer running Windows XP, Vista or Windows 7 and a minimum screen size of 1024 x 768 pixels. SuperFox uses mainstream technologies that have all been declared as key to their vendor's futures. This means no surprises in the future.

Key Functions

As childcare providers we all do similar back-office tasks. We keep mandatory family and staff records, we run family accounts, manage the setting finances, monitor our performance and plan for the future. It's not rocket-science but it can take a lot of time. SuperFox tackles all of these jobs quickly and simply.

Family Details

- Family and children's records.
- Waiting list management and enrolment.
- Comprehensive reports including birthdays, consents, medical & dietary notes and emergency contacts.
- EYFS - children's preferences & Key Persons.
- Registration & re-registration forms, mail merge address lists for your own office use.

Family Accounts

- Easy booking entry and register pages.
- Interactive calendars and attendance timelines.
- Flexible invoicing.
- Payments received handling.
- Voucher handling.
- Family account summaries & receipts.
- Credit control and late payment reminders.
- Optional Sage exports.

Staff Details, Pay & Holidays

- Staff details, qualifications, pay rates & emergency contacts.
- OFSTED and workforce audit-friendly staff summary.
- Easy staff attendance entry in register or timesheet format.
- Pay statements.
- Setting manager's appointments & reminders.
- Staff and volunteer appointments & reminders.
- Holiday, sickness and absence tracking.
